

Zero Ion G3-18 Military and IPC Approved Cleanliness Tester Resistivity of Solvent Extract (ROSE) Tester

Dimensions:

28" x 53 1/4" x 53" (288 Lbs)

Tank Dimensions:

18" x 18" x 3"

Compliance:

Meets the following cleanliness testing specifications:

- WS 6536 - MIL STD 2000A - IPC J-STD 001 TM650 2.3.25

Features:

- Ultra-sensitive "Dynamic Measurement Technology"
- Built-in 18" x 18" test cell (other sizes available)
- Temperature-compensated titanium resistivity test cell
- Universal assembly holder
- Windows PC control system operating on Windows 7
- Unlimited program recipes
- LCD display screen
- Wireless keyboard and mouse
- ESD-Safe countertop
- ESD Grounding plug
- Wired and wireless networking via Windows Pro Upgrade
- Built-in PDF report writer
- Export to XML capabilities
- Welded steel frame and panels
- Corrosion-resistant baked powder-coat epoxy finish

Calibration Kit:

- Test solution (5 gallons)*
- Calibration solution
- Hydrometer
- Pipette

NOTE:

* Test solution is shipped separately. Test solution cannot be shipped by air.

Power Configuration:

110-120 VAC 10 amps 60 Hz
