

I. Equipment specifications:

1. The equipment is an original G4 HT2800;
2. The flow meter brand of the equipment is Horiba MFC;

II. Equipment Integrity:

MKS controller

Press and butterfly valve

Temperature controller and light tube temperature

measurement system

In-situ monitoring system

water bath

process pumps

DOR pump

Glove box pump

Dew point meter

Rotary motor system

DP pressure gauge

MFC and PC Complete

Complete host computer and PC

INTERFACEBOX

PLC module

Electrical control system

SCS module
