

Item	Part Number	Description	QTY
10	0809023-000	MODEL, SPECTRA FILM 8660	1
		High throughput general film measurement tool with Broadband Spectroscopic Ellipsometer (BBSE) (235 - 900nm) and Polarized Ultraviolet Reflectometer (240nm # 900 nm)	1
		WLR	1
		White Light Reflectometer. Wavelength range 450nm-900nm	
		240 BBSE, UV, SpectraShape	1
		System Elect W/O Ring Term V1.3	1
		REF Chips Reflectors,V8 Stage	1
		OPTION,AMC FILTER,ALERIS	1
		Airborne molecular contamination filter option for Aleris fan filter unit. Replaceable filter reduces airborne contaminants such as acids, bases, dopants, condensibles, and organics. Recommended for fabs where air quality excursions may be an issue.	
		Main only LT 4CLR w/Buz OpCon	1
		Opt, Ion Shower PHX TF 3.0	1
		CD HT (High Throughput)	1
		License,SW,SE Films Option	1
		FDC License	1
		Pipeline license	1
		GEM/SECS and RS232	1
		-Software that controls communication between Equipment and Host system, (RS232 Serial Binary Data Exchange)	
		HSMS	1
		High Speed Messaging system	
		E87 (Based on E39)	1
		E87 Carrier Management Services (Based on E39)	
		-Tool software that manages automated and manual carrier (FOUP) transfers to and from the equipment	
		-Based on E39 Object Services	
		E84 LC Error Recovery	1
